SciPy2013 | Sponsorship Opportunities

Scientific Computing with Python • Austin, TX • June 24-29

Why sponsor SciPy 2013?

As a community, SciPy advances scientific and analytic computing through the development and promotion of open source Python software. The annual SciPy Conference brings together academic and industry users to present their latest advances, learn from skilled users and developers, and collaborate on advancing the ecosystem. Python usage continues to grow significantly in scientific and analytic computing thanks to the efforts of this community.

Your sponsorship of the conference provides vital financial support to the community and offers your organization the opportunity to build awareness, to recruit staff, and to build contacts.

Your Sponsorship also provides the necessary resources to fund:

Community Scholarships…
SciPy offers scholarships for students and researchers who contribute to the community. In 2012 we were able to pay the travel, registration, and lodging costs for ten applicants to attend the SciPy Conference. Scholarship recipients are selected for their outstanding contributions to open source scientific Python projects. In the last 7 years over 60 students have attended from countries like Estonia, India, France, Spain, Japan, South Africa, Colombia, Canada, and the United States.

Tutorials…
We provide two days of expert-led tutorials at the start of the conference. These tutorials are very popular, with an introductory track for attendees new to Python, and advanced track for experienced users.

Keynote Speakers…
Prominent members of the scientific computing communities present their research and share their experience and expertise in software development.

General Sessions…
Authors share their juried presentations covering the latest developments in the use of Python in science during the two main days of the conference in two tracks of interests.

A Poster Session…
In conjunction with the General Sessions, authors with quality papers that couldn't be scheduled into the presentation sessions display their work and answer questions about their research.

Sprints…
Each year, two days of sprints wrap up the SciPy Conference and provide an opportunity for collaborative coding and problem-solving on SciPy open-source projects.

Affordability…
Sponsorships enable the registration fee to remain extremely affordable compared to many other meetings.

For SciPy 2012, these aspects of the conference were made possible through the generous support of sponsors including Google, Los Alamos National Lab, Continuum Analytics, GitHub, Microsoft, numFOCUS, Schrödinger, Python Software Foundation, SIG Susquehanna, WingWare, Media Sponsor Computing Science & Engineering, and Institutional Sponsor Enthought.

Sponsorship Packages Available:

Platinum (one available) $12,000
Benefits: Platinum Sponsor link with logo on SciPy 2013 website
12' x 2' banner (sponsor provided) in main session auditorium
Listed as the sponsor of outstanding student SciPy contributors
Large logo on t-shirt
Listed as Platinum Sponsor on 4' x 8' Sponsor Banner at main entrance
Exhibit table during evening reception
Exhibit table in main foyer (co-located with Poster Session during conference)
Listing on the SciPy 2013 Jobs page from May 1 – July 31, 2013
1/2 page advertisement in program
4 General Session Passes

Lanyard (one available)   Platinum + $1,000
Benefits: Logo on attendee lanyards (and all Platinum benefits)

Gold $5,000
Benefits: Gold Sponsor link with logo on SciPy 2013 website
Medium logo on t-shirt
Listed as Gold Sponsor on 4' x 8' Sponsor Banner at main entrance
Exhibit table during evening reception
Exhibit table in main foyer (co-located with Poster Session during conference)
Listing on the SciPy 2013 Jobs page from May 1 – July31, 2013
1/4 page advertisement in program
3 General Session Passes

Silver $2,000
Benefits: Silver Sponsor link with logo on SciPy 2013 website
Small logo on t-shirt
Listed as Silver Sponsor on 4' x 8' Sponsor Banner at main entrance
1/8 page advertisement in program
2 General Session Passes

Additional Opportunities with listing on Sponsor Banner:
$4,000 Sponsor Wednesday Evening Welcome Reception
$5,000 Sponsor a lunch
$1,000 Sponsor a Friday or Saturday Sprint

Media Sponsors   co-promotion
Promotion opportunities: logo on website, email to conference list, social media promotion, mention in newsletter to 25K+ list, …
